Appendix A 2001 Census data

The Great Ayton census data can be obtained from <http://www.neighbourhood.statistics.gov.uk/>

Key figures: All population 4930 in 2292 properties with 0-17 age population being 950 so 19%. However these figures includes Easby, Kildale and Little Ayton. The Wikipedia entry for Great Ayton in 2001 is 4570.

The electors / housing for Easby, Kildale and Little Ayton in the 2007 electoral register combined is 297 / 137. If the 297 is inflated by 25% to allow for 0-17 ages then the number of occupants is 371. If this total is removed from 4930 it gives 4559 which is about the same as the Great Ayton Wikipedia entry.

The number of properties can be calculated by taking the 2001 properties and removing the Easby, Kildale and Little Ayton in the 2007 electoral register of 137 which gives 2155. This is close to the 2007 figure of 2128.
